WHAT?

Starfish-06 -a big camp for sea scouts, girls and boys. Scouts and Guides from northern Europe are invited.

HOW?

We learn from each other what sea scouting is in different parts of the Baltic Sea and the Northern Sea. There is a big difference between sailing in an archipelago and at coast without islets. Please forward this invitation to other troops whom would be interested in attending.

WHY?

This is the first Big camp in Sweden exclusively for sea scouts since 1968. This is an extraordinary opportunity for life long relations.

The Starfish, 5 directions of marine activity. What would you like to do at the camp?

Send us an e-mail with your suggestions sjostjarnan06@ssf.scout.se

Do you have special knowledge that you would like to share or teach? Maybe a challenge for a team or patrol. Write and tell us what you would like to do: sjostjarnan06@ssf.scout.se

It is a privilege to have friends in other countries, and to have friends that share your favourite hobby, scouting/guiding and sailing. Friends to meet in foreign places like the islets. Year after year.
